## *Admissions Office*

### CERTIFICATION OF SPECIAL REQUIREMENTS FOR ACADEMIC PROGRAMS

- If the student is missing any doses of the hepatitis vaccine at the time of admission, the student will be responsible for going to a vaccination center, to be given the doses on the corresponding date.
- For those students enrolling in any of the academic programs which are related to the Health and Education fields among others, the internships/practicums centers and the Review Boards may require a negative criminal background record certification and Certification under Law 300 of September 2, 1999, better known as “*Criminal Record Verification Act of Care Service Providers for the Children and the Elderly of Puerto Rico*”. The students may be required to submit vaccines certifications for specific shots , as well as other official documents or special requirements to begin the internship, take the licensing exams or during the years they are studying and before graduating from NUC.
- For the Criminal Justice, Pharmacy Technician and Nursing programs students should be 18 years of age or older in order to begin their internship/practice at the cooperating agencies. Also, some other academic programs may also require the age minimum previously mentioned in order for students to begin their internship.

For additional information and/or questions with regard to the above please contact your Academic Department Director or Coordinator at 1-888-431-0121.
