

BACHELOR'S DEGREE IN  
**SCIENCES OF  
PSYCHOLOGY**

**Possible Employment Opportunities\***

- Social technician in mental health programs* ◀
- Case Manager* ◀
- Socio-criminal technician* ◀
- Therapeutic assistant in rehabilitation centers in different public or private agencies* ◀

\*These examples are intended to serve as a general guide. There are many factors that determine what occupation an individual can achieve and NUC University cannot guarantee its graduates a specific job position. Some positions may require licensing or other certifications. We encourage you to research your job requirements and career goals.

The Bachelor's Program in Psychology Sciences will train the student in the scientific study of individual and collective behavior based on the biopsychosocial approach. Likewise, the student will develop knowledge and skills related to the basic foundations of the main subfields of psychology, research methodologies, and clinical evaluation.
