

## Possible Employment Opportunities\*

*Graduates of this program can hold managerial and administrative positions in private and public organizations in general, including those related to the healthcare industry.*

\*These examples are intended to serve as a general guide. There are many factors that determine what occupation an individual can achieve and NUC University cannot guarantee its graduates a specific job position. Some positions may require licensing or other certifications. We encourage to research your job requirements and career goals.

# MASTER'S DEGREE IN **BUSINESS ADMINISTRATION** WITH SPECIALTY IN HEALTHCARE MANAGEMENT

The Master's Degree in Business Administration with specialty in Healthcare Management offers students the theoretical foundations of business administration. Through courses on marketing, finance, accounting, and economics, graduates of this program will develop skills in business decision-making. The specialty courses will prepare students with the fundamentals of managing companies that provide health services and the laws, regulations, and policies that govern said industry. In addition, the program aims to develop in students skills in project management and health information management.
